High Speed Landing Craft - LC22

June 17, 2020

Product Overview

This boat will go into service in the South Pacific island of Guam running fuel and food to smaller remote islands. The LC22 with the [Maxgate](#) landing door and heavy duty hydraulics not only allows you to drive large vehicles on and off the beach, it will easily lift a truck as well. The mobile console, called the [Maxhelm](#), allows the captain to position himself anywhere necessary on the boat, ensuring maximum visibility, comfort, and safety, regardless of the configuration of the load. The open design of this boat allows the use of custom deck components that can be placed or removed as needed. Components can include cabins, elevated bridges, pump tanks, dry cargo containers, haz-mat kits, row seating, and more.

Project Details

HULL MODEL 4112

BUILD #LC-22

POWER: TWIN SUZUKI 350 DUAL PROPS
